## TECHNICAL SKILLS

- **Languages** : Kotlin, Python, C++, SQL
- **Android** : Jetpack Compose, MVVM, Room, Navigation
- **Tools** : Git, GitHub, Android Studio
- **AI** : Generative AI, Prompt Engineering
- **Core CS** : Data Structures & Algorithms, Object-Oriented Programming, Operating System, System Design

---

## PROJECT

### NodeBook – Notes Taking Application | GitHub Link

Kotlin | Jetpack Compose | MVVM | Room

- Developed a note-taking Android application using Kotlin and Jetpack Compose.
- Implemented Room Database for efficient local storage and retrieval of notes.
- Followed MVVM architecture to ensure maintainable and scalable code structure.
- Enabled note creation, editing, deletion, and search functionality through an intuitive user interface.

### CookBook – Offline Recipe Application | GitHub Link

Kotlin | Jetpack Compose

- Built an Android recipe application providing offline access to categorized cooking recipes.
- Designed a responsive user interface using Jetpack Compose for seamless navigation.
- Implemented recipe browsing, search, and detailed recipe viewing features.

---

## EXPERIENCE

### National Institute of Electronics and Information Technology (NIELIT), Patna

Artificial Intelligence using Python Intern | Jun 2025 – Jun 2025

- Built machine learning mini-projects including Spam Email Classification and House Price Prediction using Python, Pandas, NumPy
- Utilized Pandas and NumPy for data preprocessing, analysis, and feature handling in machine learning workflows.
- Worked with Google Colab and Jupyter Notebook to implement, train, and evaluate machine learning models.
- Gained practical exposure to Artificial Intelligence, Machine Learning, and Deep Learning concepts through hands-on project development.

---

## EDUCATION

### Government Engineering College, Lakhisarai (BEU)

Bachelor of Technology in Computer Science & Engineering (AI)

2023 - 2027 | CGPA : 7.99/10

---

## ACHIEVEMENTS

- Solved 150+ Dsa problems on LeetCode.
- Successfully completed and documented a 100 Days DSA Challenge on LinkedIn.
- Conducted Git & GitHub learning sessions for students through Google Meet, helping peers understand version control and collaborative development workflows.
- Served as Game Development Lead at the GDG Chapter, Government Engineering College Lakhisarai.
- Led a team and contributed as the primary developer in the Google Solution Challenge (Hack2Skill), transforming project ideas into functional implementations.
- Selected participant in GirlScript Summer of Code (GSSoC) 2025 and 2026.

---

## CERTIFICATION

- Modern AI – Cisco Networking Academy
- Git & GitHub – GeeksforGeeks
- Google Solution Challenge (Hack2Skill) Participation Certificate
